<http://n-alsharafi.github.io>

Istanbul, Tuzla, 34956, Turkey | +90 5411205169

Education

Sabanci University

Oct 2022 - Present

Faculty of Engineering and Natural Sciences | B.Sc. | Computer Science and Engineering

Relevant Coursework: software engineering, data analysis and optimization, machine learning, data structures, algorithms, NLP, AI, Deep learning, Computer Networks, Network Science

GPA: 3.86/4

Work Experience

Contract Fullstack Developer/ Dev-Ops Engineer

Nov 2025 - Jan 2026

Eastern Al-Maha Company | Kuwait, Kuwait

- Refined scope to reduce feature bloat and realign the project with core requirements
- Responsible for Backend and Frontend patches and updates informed by a pilot program
- Optimized and hardened GCP deployment and migrated to cloud buckets

Backend Developer/ Dev-Ops Engineer Intern

Jun 2025 - Aug 2025

Eastern Al-Maha Company | Kuwait, Kuwait

- Responsible for coordinating backend development within itself and with client-side teams
- Responsible for Kubernetes infrastructure, GCP deployment, and DevOps setup
- Developed some backend services and coordinated merging all services into the system

Projects

SemEval 2026: Task 9 - Multilingual Text Classification

Nov 2025 - Jan 2026

- Participated in SemEval 2026 Arabic text classification: Polarization Detection
- Achieved P4 (Dev set) on binary classification using k-fold ensemble (10 models) with empirically tested preprocessing and MARBERT_v2
- Attained P5 (Dev set) on multiclass classification through MARBERT_v2 fine-tuning with snapshot ensembling and asymmetric loss optimization
- Evaluated morphological features and Arabic-native LLMs against our chosen approaches

Toxic Comment Identification

Nov 2025 - Jan 2026

- Led multi-label toxic comment classification project comparing 5 deep learning architectures (BERT, DeBERTa, Mamba SSM, xLSTM, custom Transformer) across 6 toxicity categories on 159k samples
- Fine-tuned BERT-base and DeBERTa-v3 achieving 0.9815 AUC and trained a custom transformer achieving 0.8813 AUC

AI Research Gap Finder

Feb 2025 - Jan 2026

- Created a Web App that takes the user along the process of creating a Systematic Mapping Study using AI with comprehensive state management
- Developed a multi-agent MCP system enabling iterative query improvement, paper retrieval and filtering, topic analysis and graphing then report generation
- The user is able to jump in at every step and guide the Agent's behavior.

WitchCraft: Quick Online Ai-CV creator

Mar 2025 (8-day project)

- Quick, drag-and-drop CV creation, users only write their info once in the profile
- Implemented AI to tune generate CVs tailored to specific job descriptions
- Designed a User-friendly Profile and Home pages with a CV parsing tool

GitHub developer centrality and language diversity

February 2025 - June 2025

- Handled a 50gb graph containing 10 million GitHub users and their repositories
- Carried out community detection powered with cuGraph, Nvidia RAPIDS on Saturn Cloud
- Central users in programming language communities usually only know that language

Core Skills

Languages: Bash, Python, C++, HTML & CSS, Javascript, Java, SQL, YAML, GO

Developer Tools/ Frameworks: Docker, Clion, VScode, IntelliJ, Android Studio, git, GitHub, Neovim, tmux, Kubernetes, AWS, GCP, skaffold, minikube, MongoDB, SpringBoot, React Native, ExpressJS, Pandas, React, Langchain, Weaviate, Milvus, Ollama, Sci-kit learn, Pytorch, NestJS, FastAPI, networkx, cuGRAPH, MCP, Cursor, Claude Code, GitHub Copilot, Jira, Slack

Soft Skills: Leadership, Problem Solving, Organization, Time management, Working Under Pressure, Communication, Presentation, Team Management, Scrum, Agile development, Planning

Languages

Arabic (Native), English (Fluent), Turkish (Beginner)

Certificates

Applications of AI for Predictive Maintenance

Nvidia | Feb 2025

CCNA (Cisco Certified Network Associate) New Horizons Computer Learning Centers | Apr 2022

Certified Ethical Hacker

New Horizons Computer Learning Centers | Mar 2022

CompTia Security+

New Horizons Computer Learning Centers | Jan 2022

CompTia Network+

New Horizons Computer Learning Centers | Oct 2021
